President Nominee Statement

Dear PE Member,

I handed in my resignation earlier this year following ongoing issues within the PE Board. Regrettably, I felt that I had no other choice.

Since then, many PE members have contacted me asking me to reconsider so I am putting my name forward again for a new mandate from the members.

Despite the very real internal Board problems that led to my resignation, we were making great progress in our sport in so many ways. In 2020/21, we started a restructuring exercise and the benefits of this will enable PE to achieve many rewards for the whole membership.

I feel that overall a lot has been achieved since 2020. We are back on a good financial footing and we have got through the incredible challenges of the pandemic. We worked very hard to improve communications with all our members. Most importantly of all, we are back playing again at local, regional and national level and we are all looking forward to our restored Inter-Regionals at a new and exciting venue.

I hope that you will support me so I can work together with a new Board to build on the many positive things that we have achieved.
