

Paul Reeve

### President Nominee Statement

I am Chair of Norwich Petanque Club. I live in Norwich with my wife and family, and we are passionate about our sport. I am retired after running businesses involved in employee and customer research and board development programmes. This involved me in encouraging employees and customers to express their opinions openly and then facilitating boards to use this feedback to improve the way in which they lead and manage their organisations and people.

Sport and sports administration have played a major part in my life, particularly with athletics, climbing and ocean racing. This has involved me in not only participating, but also organising and officiating at events. I am currently a member of PE Events Group and am also working on the development of a pan petanque survey to help PE understand the needs of clubs and players at all levels.

Should I be elected, I would work towards PE engaging more with our grassroots and with the many players who are not members of PE or members of our clubs. It is also vital that we provide more effective support to PE members and our clubs.
