# Senior's Qualification System 2025

This document is to be read in conjunction with the Petanque England Playing Rules 2025.

The following senior qualifying events are scheduled for 2025 leading to international representation:

Veterans Triples      SSE Mens Doubles  
SSE Men's Triples      SSE Womens Doubles  
SSE Womens Triples

- Veteran team winners will qualify for the European Championships at Santa Suzanna, Spain
- Senior Men triples winners will qualify for the European Triples at Santa Suzanna, Spain
- Senior Women winners will for the World triples championships at Sin-le-Noble, France.
- Senior Mens and Womens doubles players will qualify for the Singles and Doubles World Championships in Rome, Italy

Each team member must participate in all qualifying days to be eligible for representation. Players will not be allowed to change (switch) teams during any of the qualification days.

Triple teams can be made up of either 3 or 4 players.

The top-ranked team in each triple (men/women) and doubles (men/women) event will be the PE (England) team for international representation, if a team is entered.

Teams of 4 players may change a player during a game, but only once and only between two ends, before the jack has been thrown and after informing the opposing team. The change of a player must be recorded on the scorecard for that game. Please note that all 4 players must play at least 3 ends on each qualification day.

All qualifying events will be played over a weekend with teams accumulating points each day. The SSE men's and women's triple events will have an additional top 8 event to determine the overall winners to represent the country.

Teams will be seeded for the DAY 2 qualifier based on their final ranking at the end of the DAY 1 qualifier.

In the event that a 3 player team qualifies for international representation, a fourth player will be selected from the next highest ranked team. This selection will be made in consultation with the qualifying team, Lead Coach and the Head Coach.

The qualifying series will be played over a weekend as advertised on Sport 80 and the Petanque England calendar.

The format of the series will be either 4 rounds Swiss with knock-out or league and knock-out depending on numbers. 8 teams will progress through the main event each day with the remaining teams progressing to the Plate and/or Bronze events.
